Subject: Re Heritage Board meeting Sept. 11, 2014 preparation and agenda

I agree completely Louis and thanks!...but there is one thing that I need to mention that is frustrating me and in view I tonight's meeting I need clarification. As a Board we spent two plus hours getting legal direction and asking very relevant questions. Within 3 minutes of the end of that discussion I felt like a kid in grade 3 being scolded by the Mayor and basically being told how to vote. How does that conversation..sorry..poor use of wording because a conversation implies a two way or more discussion..rather it was a rant about 'doing our job' and pushing a perspective. That is the real issues here and much bigger than conflict of interest when the Mayor of this community makes the sort of statements he did on Tuesday evening. How do I process that? In my humble and far from legal mind that was an attempt to influence the Board!!
