

Dylan Wooley-Berry

Bio:

I was born and raised here in Sackville, New Brunswick. I attended Salem, Marshview, Tantramar and chose to go to Mount Allison for University. During my second year at Mount Allison I was elected Student Union President, becoming the first president to be elected in their second year of university and the first president from Sackville. After earning my degree from Mount Allison I moved to Ottawa for an internship in the Office of the Minister of Fisheries, Oceans and the Canadian Coast Guard and was offered a full time position at the end of the internship. After working for over a year in the Minister's office I decided to move back home to New Brunswick.

Why I am running,

One of the things I would like to see our town change is how it bills residents for water usage. Residents should pay per liter of what they use. The current minimum payment scheme is not environmentally friendly as it creates economic incentives to consume more water. By removing the minimum payment system and implementing a pay per liter billing system we create an incentive for residents to conserve water. Sackville is a great town, this is just one example of something that needs to be fixed. I care deeply about the Sackville community and believe that it is my turn to give back.
