Mayor & Council
Town of Sackville
41 Main Street
Sackville, NB

Dear Mayor & Council:

Re: Application for Road-side access

The Tantramar ATV Club is continuing development of our local trail system with a goal of connecting to neighbouring communities, creating Sackville as a destination and gateway for trail system usage in south-east New Brunswick.

The Club is pursuing development of a link to Cape Tormentine and are seeking Town Council approval of usage of road/trail within town limits. Our interest is to establish a link to Cape Tormentine via access to the rail bed, beginning at the Trans Canada Highway., We are very open to implementing reasonable restrictions such as speed limitations and dust control on the rail bed.

If access to the rail bed starting at the Trans Canada is not a viable option, then we would like to present a second option for consideration: link the ATV Club's trail at the top of Mount View Road to the rail bed at Station Road via access to the length of Mount View Road, crossing route 940 to the rail bed entrance on Station Road.

I would request a meeting with Mayor and Council to discuss this further.
