

Councillor Bruce Phinney's remarks on new hiring policy, town council meeting
Feb. 14, 2022.

I'll be voting against this Hiring Policy because I feel that we're still using the same method we've been using for some time, and in the meantime during those, that time we've had a number of — it's to me what I would call unfair hiring practice — that's because of the fact that, some of the people actually even in the town feel the same way, where family members are being hired and then, also to me, there was one that I felt was a conflict of interest, so because of that, I think actually we should engage with a human resource management expert to turn around and help with the hiring, so that's how I feel.
