Today after a lot of contemplation and the encouragement of many community members, I am proud to announce my candidacy for Mayor.

I am running because I believe Tantramar deserves leadership that listens, acts responsibly, and puts people first. My campaign is built on a a commitment to the values and priorities that matter most to the residents of our community.

First the health and safety of our people, our wildlife, and our environment must always come first. A strong community is one where families feel safe, where natural spaces are protected, and where growth is balanced with sustainability.

Second I believe in fair municipal taxation where residents are taxed based on the actual services they receive. Transparency and fairness in how your money is collected and spent are essential to building trust.

Third our community needs to be heard. Every resident's voice matters. As Mayor I will ensure that concerns are not only listened to but respected and acted upon. Open dialogue will be a cornerstone of my leadership.

Fourth I stand firm on accountability, integrity, and equality. Public office is a responsibility, not a privilege. Decisions must be made honestly, ethically and with fairness for all.

Finally I am committed to transparency. You deserve to know how decisions are made, where resources are going, and what progress is being achieved. Clear communication will always be a priority.

My campaign is about building a Town that works for everyone, today and for the future, I look forward to connecting with each of you, hearing your ideas and earning your trust.

Together, we can move forward with purpose, fairness and a shared vision for our community.
